Summary

Entry-level Software Developer with a strong foundation in Java, Python, JavaScript, SQL, Data Structures and Algorithms, and Object-Oriented Programming. Experienced in developing responsive web applications using React and building computer vision solutions using Python, YOLOv8, and OCR. Interested in developing scalable applications and solving real-world engineering problems.

Technical Skills

Programming Languages: Java, Python, JavaScript, SQL

Web Technologies: React.js, HTML5, CSS3, Bootstrap, Responsive Design

Databases: MySQL

Core Concepts: Data Structures and Algorithms (DSA), Object Oriented Programming (OOP), DBMS, Operating Systems, Computer Network

Developer Tools: Git, GitHub, VS Code, Postman, Google Colab

Projects

Company Crime Tracking System using Blockchain

Technologies Used: React, JavaScript, HTML5, CSS3, Bootstrap, Blockchain

- Designed and developed a responsive web interface that lets users submit and track crime reports across different screen sizes.
- Built user-friendly screens for authentication (login), crime report submission, and record viewing, with clear navigation between each section of the application.
- Integrated the front end with backend services to display tamper-proof crime records, applying blockchain principles to keep every logged report permanent and transparent.

Helmet and Number Plate Detection Using YOLO and OCR

Technologies Used: Python, YOLOv8, OpenCV, EasyOCR, Computer Vision

- Developed a computer vision pipeline in Python using YOLOv8 for real-time object detection of motorcycles, helmets, and number plates.
- Implemented Optical Character Recognition (OCR) using EasyOCR to extract vehicle registration numbers from detected violations.
- Integrated detection and OCR into an end-to-end pipeline to automate helmet violation detection and replace manual monitoring.

Education

S.K.P Engineering College **2022 – 2026**

Bachelor of Computer Science and Engineering | CGPA: 8.8

Maharishi Higher Secondary School **2022**

HSC (12th grade) | Percentage: 91.8%

Maharishi Higher Secondary School **2020**

SSLC (10th grade) | Percentage: 96.2%

Certifications

- Full Stack Web Development, Strydo Technologies
- SQL (Basic) Certificate, HackerRank
- Java Fundamentals Course for Beginners, Udemy
- Relational Databases and SQL: Complete Guide for Developers, Udemy
- Blockchain and Cryptocurrency Fundamentals, Udemy
